

RESOLUTION

PROHIBITION OF WATER SOFTENERS
WITHIN THE MERIDIAN SERVICE METROPOLITAN DISTRICT
AND ANY SEWER CONNECTED SYSTEM

WHEREAS, the Meridian Service Metropolitan District ("District") is a quasi-municipal corporation and political subdivision of the State of Colorado, organized and operating pursuant to Section 32-1-101, et seq., C.R.S.; and

WHEREAS, it has come to the District's attention that the District's wastewater contains high levels of Total Dissolved Solids (TDS) that may be attributable to commercial and residential water softeners used by the District's customers; and

WHEREAS, the District is a party to a wastewater treatment plant that is considering adding infrastructure to enable reverse osmosis to reduce the TDS levels in the District's wastewater; and

WHEREAS, it is in the best interest of the District, and its customers, to have an alternative solution to reducing TDS levels in order to minimize the capital cost of the needed treatment that will be required to reduce the TDS levels and upgrades that will be needed to support reverse osmosis treatment of TDS in the District's wastewater; and

WHEREAS, the District believes restricting the use of water softeners may have a positive effect on reducing the TDS levels of the District's wastewater.

NOW, THEREFORE, BE IT RESOLVED by the District's Board of Directors, having duly noticed this topic for board discussion and having made this proposed resolution available for public comment, hereby enacts a prohibition on the use of domestic water softeners within the District's service area and connected systems to the extent allowable by law.

ADOPTED AND APPROVED this 7th day of December, 2015.

MERIDIAN SERVICE METROPOLITAN DISTRICT
